Illinois Tech Relationships as a Service (RaaS) Sign-Up Form

Note: to verify your identity, this form is restricted to accounts in the Illinois Institute of Technology domain and will collect your Illinois Tech email address. However, this email address will not be disclosed to anyone nor used in this service except as your unique identifier in the back-end. For more information, please read the "RaaS Description" section below.

The respondent's email (**null**) was recorded on submission of this form.
*Required

1.   Email *

     _____

2.   Preferred Name *

     This name will be shared with other potential matches exactly as entered.

     _____

3.   Personal Email *

     This will be the email you use for all further correspondence.

     _____

4.   I self-identify as... *

     Mark only one oval.

     ( ) Male

     ( ) Female

     ( ) Nonbinary/Other

5. **I am interested in developing relationships with... ***

Equivalent to "show me:" on Tinder

Tick all that apply.

☐ Male

☐ Female

☐ Nonbinary/Other

6. **I am interested in... ***

Select all that apply. When viewing potential matches, you'll be given the option to "like" or "dislike" them for each of the following criteria you've selected. For example, if someone appeals to you as a friend but not sexually, you'll be able to "like" them for "Friendships without Benefits" and "dislike" them for "Hookups or Friendships with Benefits". When you match, you'll be told which criteria you've "liked" in common. If you're looking for dating relationships with the potential for sex but don't necessarily require it, you may select both "Serious Relationships without Sex" and "Serious Relationships with Sex" and you'll know which your match agrees with upon matching.

Tick all that apply.

☐ Friendships without Benefits

☐ Hookups or Friendships with Benefits

☐ Serious Relationships without Sex

☐ Serious Relationships with Sex

7. **Link to Personal Social Media/Photos ***

This will be shared with potential matches exactly as entered. For uniformity, we highly recommend you specify a link to your Instagram account following the format https://www.instagram.com/<instagram_username>/ - please note that content in private Instagram accounts cannot be seen except by those who follow you. We will include dummy accounts (of volunteer Illinois Tech students who don't sign up) that use other types of links so that if you choose to share a different link, your participation in this service remains anonymous.

_____

8.　　Biography (optional but recommended)

This will be shared with potential matches exactly as entered and can contain whatever information you'd like to share. Dummy accounts (of volunteer Illinois Tech students who don't sign up) will have various types of fake bios of various lengths associated with them so that your adding a bio doesn't reveal your participation in the service thus allowing it to remain anonymous.

9.　　Discord Tag *

This will be shared with potential matches exactly as entered only upon a successful match, allowing you to continue your communication with the match over Discord. We chose Discord because it is a free platform that is already used for classes by most Illinois Tech students and because most Discord users do not include their name or other personal information in their Discord tag. If you'd like to remain completely anonymous while messaging, we suggest using a tag that does not contain your name or other personal information. If you are not familiar with how to use Discord or if you have an account but would like to create a new one so as to remain anonymous, we suggest checking out the following page for further instructions: https://support.discord.com/hc/en-us/articles/360033931551-Getting-Started
